MANIKANDAN S

Senior Localization Coordinator | LQA Operations

+91 70943 63309 • manikandan.subbru@gmail.com • LinkedIn_Profile • Chennai, India

PROFESSIONAL SUMMARY

Senior Localization Coordinator with 4+ years of experience owning complex, multi-client LQA workflows across 30+ languages. Specializes in end-to-end Jira-based quality lifecycle management — from structured ticket creation and PO issuance through arbitration, escalation, and final closure — for enterprise clients including Amazon, RingCentral, Atlassian, and Life Sciences accounts. Proven record of zero SLA breaches over 12+ consecutive months, with deep expertise in TMS operations (XTM, Smartling, Phrase), reviewer coordination, and scalable process governance across high-volume multilingual pipelines.

WORK EXPERIENCE

Localization Quality Administrator | iVakya Solutions LLP, Chennai (Remote) *2021 – Present*

Clients: Amazon, Twitter/X, WhatsApp, RingCentral, Atlassian, Smartsheet, Waters, Life Sciences & Legal

- Owned end-to-end LQA coordination for major enterprise accounts (Amazon, Twitter/X, WhatsApp, RingCentral, Atlassian, Smartsheet, Waters, Life Sciences & Legal) — from project intake through final delivery and issue closure.
- Designed and governed structured Jira-based LQA workflows covering ticket creation, PO issuance, severity scoring, arbitration routing, and second-reviewer escalation across 20+ concurrent language pairs.
- Led reviewer and translation team coordination through all LQA lifecycle stages — kudos closure, neutral severity acceptance, rejection arbitration, and escalation — maintaining quality accountability at every stage.
- Administered XTM Cloud, Smartling, and Phrase/Memsource TMS at an advanced level — job creation, TM management, termbase governance, and both server-based and offline Excel file workflows.
- Issued and tracked POs for all LQA review work; maintained accurate cost-per-word tracking and vendor accountability across high-volume enterprise project cycles.
- Built and maintained KPI dashboards in Google Sheets tracking TAT, SLA adherence, defect rates, reviewer performance, and issue resolution velocity across all active language pairs.
- Served as senior escalation point between QMs, reviewers, and translation teams; identified workflow bottlenecks and implemented process improvements to sustain zero SLA breach standards.

CORE SKILLS

LQA & Quality Operations: Issue Lifecycle Management, Severity Scoring, Arbitration & Escalation, CAPA Frameworks, Quality Closure Governance

Project Coordination: End-to-End LQA Coordination, Jira Workflow Management, PO Issuance & Tracking, Handoff Management, Vendor Coordination, SLA Management
